Fucking my employees over. Fucking my clients over. What you did to me fucked up a lot of people. And your all la di da back to the party. You just don't care about the massive amounts of damage you caused. I should have just killed you. But I couldn't live with myself. And now the best choice is for me to kill myself. I bet you won't care. Or worse. You'll be Fucking happy about it. Evil. Sick. Horrible. I can't even believe you were somebody I once thought had good qualities. Fuck I was so wrong.

And now you just ignore me. You think that will make me go away. It just strengthens my resolve. If I decide to kill my self - and I'm close to that decision. You could be damn sure I'll be taking you and your flavor of the day with me.
